# Letter to a Santa Rosa County Commissioner (DRAFT)

**Date:** October 16, 2026

**From:** Dylan Thompson, 2265 Tom Street, Navarre, Florida

**Subject:** Drainage review near 2264 and 2268 Tom Street

Dear Commissioner,

I live at 2265 Tom Street. I am writing because I am concerned about the grading near the new houses across from my home and how water will drain around the existing properties.

The new construction areas appear higher than some neighboring properties. I understand that appearance alone does not prove a drainage problem. I am not accusing anyone of wrongdoing. I want to know what the County approved and whether the drainage has been checked against those plans.

The saved County records identify **2264 Tom Street**, parcel **21-2S-26-0780-0QQ00-1020**, permit **BP-2026-1621**, and **2268 Tom Street**, parcel **21-2S-26-0780-0QQ00-1490**, permit **BP-2026-1612**. Inspector comments mention proposed pipe and inlet work and roadside drainage, but we have not received the actual approved grading plans or measured outlet elevations.

I am asking your office to help us obtain:

1. A named County Engineering contact and a case or inspection number.
2. The approved grading and drainage plans for both lots, including revisions and any written exemption.
3. A documented field review of the roadway ditch, pipes, inlets and receiving outlet, including possible effects on existing homes.
4. Written findings explaining who is responsible for maintenance and whether any action is needed.

I would appreciate one coordinated County response so neighbors do not have to keep going from department to department to find the same answers.

Thank you for your attention.

**Dylan Thompson**

2265 Tom Street, Navarre, Florida
