# Request and response record

Use one sheet per request, inspection report or other contact. A prepared draft does not mean it was sent.

Office / agency / role

Sent date + time zone

Method / destination (private)

Receipt, case or request number

## 02 Exact information requested

What existing records or actions did you ask for? Keep an unchanged copy of the outgoing message.

## 03 What was received and what is outstanding

Write the exact response, missing items and filename or record IDs. Do not fill gaps by guessing.
