Missing records and next steps

Check only what has actually been received. A missing document is an open question until the source responds.

01 Records or findings physically or digitally in hand

- [ ] Approved grading/site plans and dated revisions
- [ ] Relevant original and current surveys with datum
- [ ] Drainage design details and calculations (if applicable)
- [ ] Pipe sizes, inlet / invert / outlet measurements
- [ ] Verified downstream water path and outlet
- [ ] Recorded drainage easements and maintenance agreements
- [ ] Permit conditions, inspection logs and revisions
- [ ] Written asset ownership and maintenance information
- [ ] Environmental authorization / applicability response
- [ ] Documented field visit and written findings

Permit, parcel or feature IDs concerned

Updated date

02 Most important information still needed

1. What is missing, who may have it, and which request / case ID applies?

2. What is missing, who may have it, and which request / case ID applies?
