Follow-Up and Response Tracker

2264 / 2268 Tom Street, Navarre, FL 32566 · prepared 16 October 2026

How to use this. Print it. Write the date beside each item the moment it happens. An unanswered question that has been asked for six weeks is a very different fact from one that has never been asked.

A. Public records requests — actual status

All five requests are **drafted and ready**. **None has been submitted.** No submission receipt exists, so no agency response clock has started.

#	Request	Custodian	File	Submitted?	Date sent	Receipt / ref	Response	Follow-up date
1	2264 complete permit file	Development Services	`2264_TOM_ST_COMPLETE_PERMIT_FILE.md`	☐ No	_____	_____	_____	_____
2	2268 complete permit file	Development Services	`2268_TOM_ST_COMPLETE_PERMIT_FILE.md`	☐ No	_____	_____	_____	_____
3	ROW, driveways, drainage plans	Public Works / Engineering	`SHARED_TOM_STREET_ROW_AND_DRAINAGE_PLANS.md`	☐ No	_____	_____	_____	_____
4	Deeds, plats, easements	Clerk of Court	`CLERK_DEEDS_PLATS_EASEMENTS.md`	☐ No	_____	_____	_____	_____
5	ERP 9220-2 permit file	NWFWMD	`NWFWMD_ERP_9220-2_FILE.md`	☐ No	_____	_____	_____	_____

> *Do not mark a box as **Yes** unless you hold a submission confirmation — a sent-email receipt, a portal confirmation number, or a stamped copy.*

B. Documents to obtain — the working checklist

✓	Document	From	Why it matters	Received?	Date
☐	Approved lot grading plan, 2264	Dev Services	The actual approved design	☐	____
☐	Approved lot grading plan, 2268	Dev Services	The actual approved design	☐	____
☐	Approved site plan / plot plan, both	Dev Services	Lot layout and setbacks	☐	____
☐	Existing-conditions survey, both	Dev Services	The grade **before** construction	☐	____
☐	Erosion & sediment control plan, both	Dev Services	How sediment was to be kept on site	☐	____
☐	Driveway plan with invert elevations, both	Dev Services / Public Works	Where each driveway actually discharges	☐	____
☐	Tom Street roadway profile (crown/shoulder)	Public Works	The surface the driveways had to match	☐	____
☐	**Sealed engineer's drainage certification**	Dev Services	**The document that answers the question**	☐	____
☐	Certified drainage as-built (when issued)	Dev Services	What was actually built	☐	____
☐	Recorded drainage easement, if any	Clerk	Legal basis for the shared ditch	☐	____
☐	Recorded plat for the lots	Clerk	Confirms lot boundaries	☐	____

C. The four questions to get answered

#	Question	Ask	Answer	Date answered
1	Does County Engineering have a **subdivision lot grading plan on file** for these lots?	Dev Services / Engineering	_____	___
2	What is the **positive outfall and invert elevation** for each driveway?	Public Works	_____	___
3	Who is the **engineer of record** who will sign the drainage certification?	Dev Services	_____	___
4	When is the **final grading inspection**, and may residents observe?	Dev Services	_____	___

D. Site observation log — your own evidence

Photograph the originals; do not edit or re-save them. See the **Homeowner Evidence Intake Checklist** for the full protocol.

✓	Date	Time	Location	What was seen	Duration	Rain in prior 24 h?	File names
☐	___	___	_____	_____	_____	☐ Yes ☐ No	_____
☐	___	___	_____	_____	_____	☐ Yes ☐ No	_____
☐	___	___	_____	_____	_____	☐ Yes ☐ No	_____
☐	___	___	_____	_____	_____	☐ Yes ☐ No	_____
☐	___	___	_____	_____	_____	☐ Yes ☐ No	_____

E. Action assignments

Action	Assigned to	Due	Done?
Authorise and submit the five records requests	Homeowner	___	☐
Log each submission receipt here	Homeowner	same day	☐
Set a 30-day follow-up reminder for each request	Homeowner	___	☐
Ask the County Engineering question (C-1)	Homeowner	___	☐
Request to observe the final grading inspection	Homeowner	___	☐
Collect and preserve dated photographs	Homeowner	ongoing	☐
Brief the proxy speaker from the speaking notes	Homeowner	before meeting	☐
Consider engaging a licensed surveyor / PE **once plans are in hand**	Homeowner	after §B	☐

F. Things that are not being asserted

Worth keeping on the record, and worth saying if anyone claims otherwise:

- No code violation has been established.
- No determination has been made that the drainage is inadequate.
- No determination has been made that the new construction caused any observed water.
- Both permits are **Active**; open drainage tasks are the normal state of an unfinished house.
- The neighbouring lots at 2260 and 2270 eventually closed their permits complete.

If asked "what do you actually want?" the answer is on the checklist: the approved grading plans, the sealed engineer's certification, the outfall elevations, and a field walk before the houses are finished.

Prepared 16 October 2026 from Santa Rosa County Property Appraiser and MGO Connect records retrieved 15–16 October 2026, FEMA NFHL data, NOAA NCEI GHCN-Daily data, and the Santa Rosa County Land Development Code (official PDF dated 13 January 2026).
